

Quick Reference Guide

Waterproof & Protective Coatings
Concrete Restoration
Moisture Vapor Mitigation
Self-Leveling Underlayments/Toppings
Injection Grouting

WATERPROOF & PROTECTIVE COATINGS

- **AQUAFIN-1K**
Polymer modified, cementitious, waterproof coating
- **AQUAFIN-2K/M**
Flexible cementitious, waterproof, protective coating
- **Crack Sealing Tape**
Joint Sealing Tape-2000-S
4x4-Mesh
Sealing Gasket-18/18
Accessories for detailing cracks and joints with AQUAFIN-2K/M
- **Waterstop-Strip**
Strip applied hydrophilic swelling rubber
- **Waterstop-GunGrade**
Single component hydrophilic waterstop for sealing construction joints and pipe penetrations

PRO-Tekt

- **Flexcoat**
100% solids, waterproof, polyurethane base coat
- **Trafficcoat**
100% solids, rapid curing, polyurethane intermediate coat
- **Topcoat PA**
100% solids, high performance, aliphatic polyaspartic polyurea top coat

CRYSTALLINE WATERPROOFING

- **AQUAFIN®-IC**
Crystalline waterproofing slurry
- **AQUAFIN®-IC-ADMIX**
AQUAFIN®-IC-ADMIX (NR)
Liquid and powder crystalline waterproofing admixtures
- **BETOCRETE-CP-360-WP-CI**
Crystalline waterproofing admixtures with hydrophobic and corrosion inhibiting effects for concrete
- **MORTAR-IC**
Fast setting waterproof repair and sealing mortar
- **MORTAR-PLUG-IC**
Fast set crystalline cementitious waterstop

CONCRETE REPAIR

- **REBAR PRIMER/BOND-CI**
Cementitious corrosion-inhibiting coating for reinforcing steel
- **MORTAR-40-CI**
Polymer modified structural repair mortar
- **MORTAR-V/O-CI**
Vertical and overhead concrete repair mortar
- **MORTAR-LN**
Slow setting waterproof lining, repair and sealing mortar
- **MORTAR-Screed-CI**
Polymer modified, full depth concrete repair mortar
- **MORTAR-QuickPatch**
Rapid setting horizontal patching mortar and resurfacer
- **FIX 10-S**
Ultra fast set cementitious waterstop
- **EPOXY-BasePlate Grout**
100% solids, moisture tolerant, epoxy baseplate grouting system
- **EPOXY-Primer**
100% solids, zero VOC, moisture tolerant epoxy primer

Pavemend®

- **Pavemend SL**
Semi-leveling, pre-extended (1/8") rapid repair mortar
- **Pavemend SLQ**
Semi-leveling, extendable very rapid repair mortar
- **Pavemend TR**
Extendable, semi-leveling, rapid repair trowelable mortar
- **Pavemend VR**
Vertical, overhead and precast rapid repair mortar
- **DOTLine**
Pre-extended (3/8"), fiber reinforced rapid repair concrete
- **INSTANT ASPHALT**
Water activated, permanent asphalt repair material
- **KEMROK**
Pre-extended, fiber reinforced, chemical resistant repair concrete
- **KEMROK VR**
Vertical and overhead, chemical resistant repair concrete

MOISTURE VAPOR MITIGATION

- **VAPORTIGHT COAT-SG2**
VAPORTIGHT COAT-SG3
VAPORTIGHT COAT-SG4
Post applied "vapor barriers"
 - Reduce water-vapor emissions of up to 25 lbs to 3 lbs or less
 - Flooring system can be installed as quickly as 2-3 hours later
 - Suitable for "green" concrete
 - Applied to damp concrete
 - Alkalinity barrier (pH 13-14)
 - SG2 treats oil contaminated concrete

INJECTION GROUTING

- **InjectPro-PM3811-SoilStabilizer**
InjectPro-PM3811-Flex
InjectPro-PM3811-Fast
InjectPro-PM3811-UltraSeal
Acrylate injection gels
 - Controlled set times from 20 seconds to 14 minutes
 - Elongation up to 300% (Flex)
 - Curtain grouting
 - Soil Stabilization
 - Crack injection
- **InjectProECO-LV**
Hydrophobic, low viscosity PU grout
- **InjectProECO-Cut**
Hydrophobic PU grout for void filling
- **InjectProECO-61**
Hydrophobic, PU grout for potable water applications
- **InjectProECO-Seal**
Hydrophilic, PU grout
- **InjectPro-SuperFast**
Fast reacting, 2-component, expansive hydrophobic PU grout
- **GroutOut**
Non-flammable wash agent for PU grout pumps

SELF LEVELING UNDERLAYMENTS

- **LEVEL-Ultra**
Calcium aluminate, cementitious self-leveling underlayment
 - Installs from 1/8" - 1 1/4"
 - Great for fast track construction
 - Compatible with radiant floor heating and a variety of floor coverings
- **LEVEL-One-EZ**
Indoor, cementitious self-leveling underlayment
- **LEVEL-Patch-FF**
Rapid setting, horizontal grade floor finish
